Workshop on Overview of Microscope in Dentistry

Organised by-Dept. Of Endodontics and Conservative Dentistry

The development of new technologies has fundamentally changed the modern practice of endodontics, resulting in more efficient, effective and patient-friendly endodontic care.

Session 1- 21/07/2014

Inaugural speech- Dr.Puneet Ahuja at 9:30 a.m, Venue- Vidya Hall

Brief session on Microscopic surgery by Dr.Gurjap Singh at 10:00 a.m

Lunch- 13:00 p.m

Lecture on Basics of Microendodontic Training by Dr.Rohit Kochhar at 14:30 p.m

END OF SESSION*****

Session 2- 22/07/2014

Lecture on Advanced Microendodontic training with live demonstration at 9:30 a.m, Venue-

Vidya Hall

Tea Break at- 12:00 p.m

Hands on workshop at 13:00 p.m, Venue- Department of Conservative and Endodontics,

Distribution of Certificates at 16:30 p.m, Venue-Vidya Hall.

END OF SESSION*****

What Results can I Expect?

Unlike the old fashioned "punch grafting" technique that often produces an altered texture or unnatural straight lines (Corn row) of hair appearance, Hair transplantation has dramatically improved the results of hair restoration surgery. Grafting sessions are designed to replace the lost hair, refine the thinning hairline and provide a healthy and natural appearance. Results will vary depending upon your personal level of baldness.

Hair loss affects approximately 35 million men and 21 million women in the India alone. Over 40 percent of men will have noticeable hair loss by the age of 35, while 65 percent of women will have noticeable hair loss by the time they are 60. Hair loss solutions are now available to treat all of your needs and the Hair Replacement system provides the next generation in hair restoration for men and women. Regardless of your balding pattern, Hair Transplant System can re-plant your own hair in just a few short hours, with no surgery, little to no pain and no downtime. And it lasts a lifetime. If hair restoration is a concern you have, the Hair Transplant System is the right choice for you.

HAIR **WORRIES?**

T.S. DENTAL HOSPITAL

GREATER NOIDA | Since 2000 | GHAZIABAD

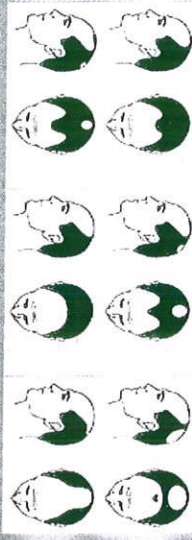

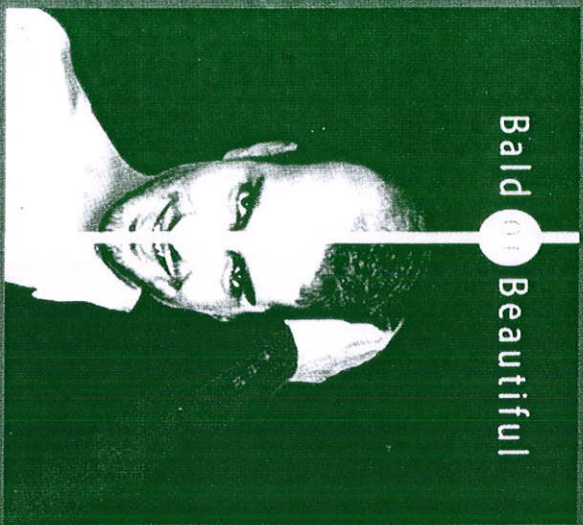

www.TSDentalHospitals.com

What is the Hair Replacement System?

It's a revolutionary hair transplant device that allows your doctor to use the most up-to-date and clinically proven method of hair transplantation called FUE (follicular unit extraction). FUE generally relies on the skill of the surgeon to be precise. With the added use of hair transplant your doctor can provide absolute and exact placement of hair transplant using technology that operates under pneumatic pressure, with precision automated control. What that means to you is that your hair transplant procedure can be performed in a safe and efficient manner with the utmost in accuracy and precision. Providing you with a complete natural appearance and with less pain and less downtime.

- New Transplant Technology Allows Maximum Coverage Possible
- No Surgery and No Scars
- Natural Looking Results
- Minimal Discomfort
- Fast Recovery

Bald is Beautiful

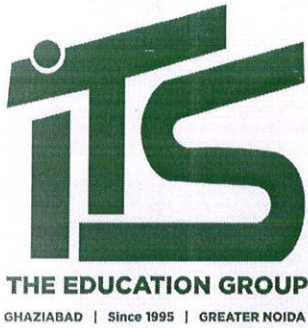

How is Hair Replacement Performed?

How's your hair with a good reason? The science behind graying is quite simple. Hair follicles are genetically programmed to continue to grow. The follicles that hold your transplanted hair are living tissues that grow

A TWO DAY INTERACTIVE, WORKSHOP ON NITROUS OXIDE OXYGEN
INHALATIONAL SEDATION.

LEARN FROM THE STALWART OF NITROUS OXIDE SEDATION
HIMSELF!!

SPEAKER: Dr. SRINIVAS NAMINENI

DATE : 22-23 NOVEMBER 2017

**VENUE : I.T.S DENTAL COLLEGE, HOSPITAL AND
RESEACH CENTRE, GREATER NOIDA**

DAY 1

Need of sedation in dentistry

Choice of sedation techniques- advantages and
disadvantages

Detailed pharmacology of nitrous oxide

Clinical anatomy and physiology of respiratory system

Medical assessment: history and physical evaluation

Patient selection

Clinical steps of NOIS

Clinical evaluation and appropriate physiological
monitoring

Basic component and function of each component

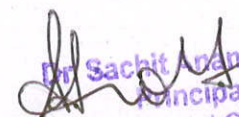

Equipment selection

Hands on demonstration

Clinical case performance

DAY 2

Excellence in Facial Aesthetics LECTURES AND HANDS-ON

16th – 17th March 2018

Dr. Sachit Anand Arora
Principal
I.T.S. Dental College,
Hospital & Research Centre
47, Knowledge Park -III, Gr. Noida (U.P.)

**Hosted by Department of
ORAL MEDICINE and RADIOLOGY**

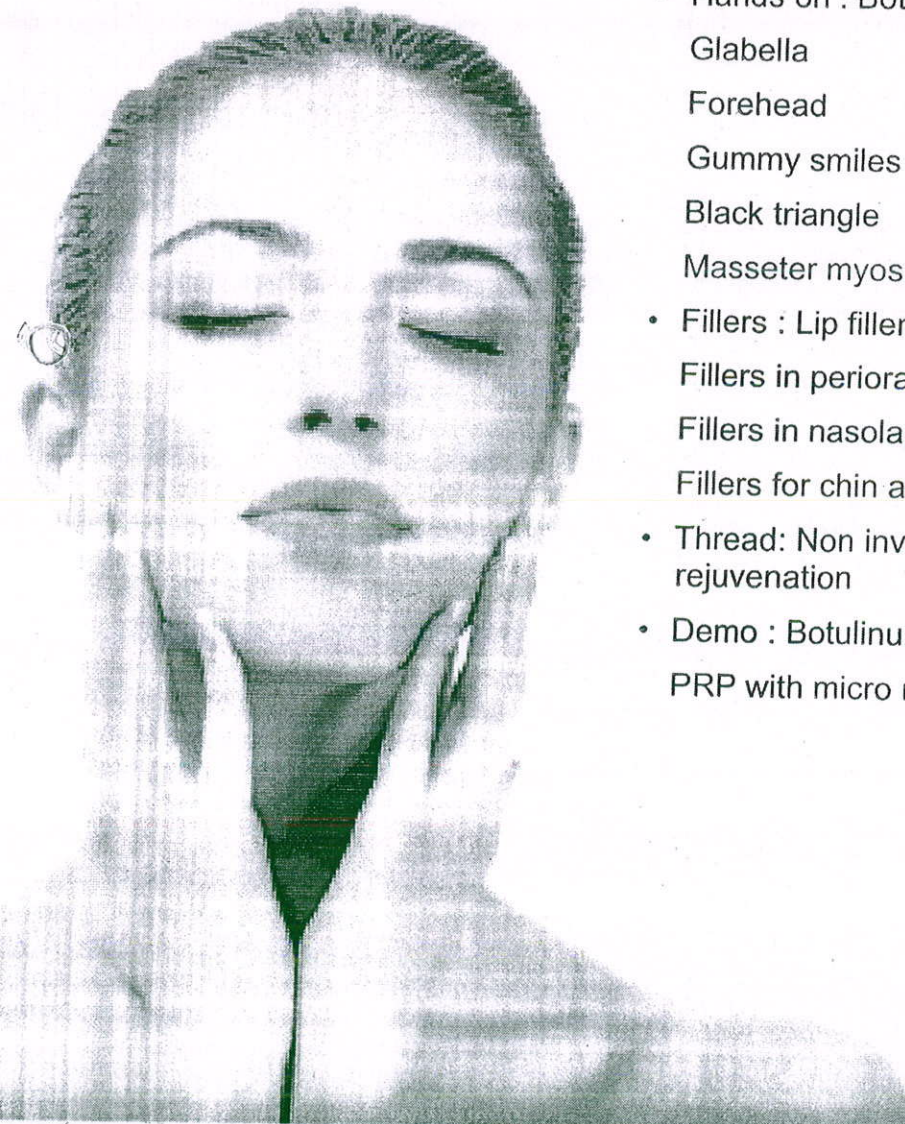

Continuing with the tradition of imparting and enhancing knowledge and clinical skills at I.T.S, we bring to you an interesting and comprehensive training program along with hands on, in the field of facial aesthetics.

This course shall enrich and enlighten you on both the aesthetic and therapeutic facets of Botox, Fillers and Threads, thereby, rendering you the skill to perform them in your clinical practice.

Highly experienced and dedicated faculty and mentors shall guide the participants through an intensive course designed on facial aesthetics. So, be a part of this golden opportunity to gain skill and march onto the path of contemporary practices in facial aesthetics.

Salient Features & Highlights of the Course

- Comprehensive evidence based lectures
- Each participant shall have hands-on on the following
- Hands on : Botulinum toxin
 - Glabella
 - Forehead
 - Gummy smiles
 - Black triangle
 - Masseter myositis
- Fillers : Lip fillers
 - Fillers in perioral structures
 - Fillers in nasolabial fold
 - Fillers for chin and cheek augmentation
- Thread: Non invasive skin tightening and facial rejuvenation
- Demo : Botulinum toxin TMD
 - PRP with micro needling

Dr. Sachit Anand Arora
Principal
I.T.S. Dental College,
Hospital & Research Centre
47, Knowledge Park -III, Gr. Noida (U.P.)

PROGRAMME DETAILS

Day-1: BOTOX

COMPREHENSIVE EVIDENCE BASED LECTURES

Lecture 9:00 am- 12:00 am

Facial Anatomy

- Anatomy of Face
- Facial Expressions

Botulinum Toxin

- Definition
- History
- Mechanism of Action
- Formulation
- Dilution and Dosage

High Tea

Hands-On 12:00 pm – 3:30 pm

Basic Indications & Techniques

- Glabella
- Forehead
- Bunny Lines
- Eyebrow
- Gummy Smiles
- Messo Botox

Lunch

Day-2: FILLERS & THREADS Sponsored by:- MONALISA

COMPREHENSIVE EVIDENCE BASED LECTURES

Lecture 9:00 am- 12:00 am

Facial Anatomy

- Anatomy of Face
- Facial Expressions

Fillers

- Indication for Fillers
- Types of Fillers
- Injection Techniques

Threads

- Indication for Threads
- Types of Threads
- Techniques
- Combination of Threads & PRP

High Tea

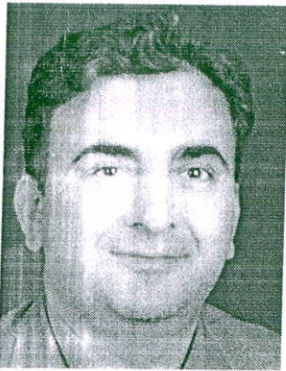

Hands-On 12:00 pm – 3.30 pm

- Fillers : Lip fillers
Fillers in perioral structures
Fillers in nasolabial fold
Fillers for chin and cheek augmentation
- Thread: Non invasive skin tightening and facial rejuvenation
- Demo: Botulinum toxin TMD
PRP with micro needling

Lunch

Dr. Sachit Anand Arora

PRECONFERENCE COURSE ON DAMON MASTER CLASS

Dr. Borgan Bader

Orthodontics is the only specialty that helps you to create natural healthy smiles that would give your patients a new start in life. Damon system is the only system that enables you to treat any case you may have, open the door for more treatments options and simplified protocols. For more over than 8 years I have been trying different ways and protocols for treatments with Damon system until I have finally created my own philosophy - Borganodontics - in using the DAMON system which helped me and will help you to be the only doctor who treats cases other doctors can't. Everything I have learned, created or developed, using the Damon system has been gathered in this master class, and for the first time in INDIA it will be available to you, so you can become a master of Damon system, step by step... from beginning to end.

DURATION	TOPIC
8:00 am - 8:30 am	INTRODUCTION
8:30 am - 10:00 am	Philosophy of Damon System Science behind Damon System Power of the System on Facial Aesthetics Less Invasive More Treatment Options
10:00 am - 10:30 am	COFFEE BREAK
10:30 am - 12:00 am	Damon System Essentials and Clinical Principles: When and How to start Treatment Damon Phase I Treatment The Recipe for better brackets Placement Time to shift frame standard to

For Registration kindly Contact
Dr. Amrita Puri 9899216233

PRE CONFERENCE COURSE ON LECTURE & HANDSON ON CLEAR ALIGNER THERAPY - A NEW PARADIGM in ORTHODONTICS

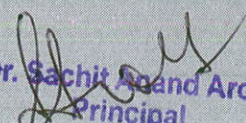

Dr. Gaurav Gupta

Dr. Rajaganesh Gautam

DURATION	TOPIC
9:00am - 10:00am	Evolution of Aligners - Dr. Gaurav Gupta - How it All Began - Why Aligners - Why Now - Future with Aligners
10:00am - 11:00am	Comparison of PEA vs CAT - Dr. Rajaganesh Gautam - Similarity & Differences - Force, Engagement & Anchorage - Extrusion, Intrusion, Torque & Root Inclinations - Treatment Mechanics
11:00am - 11:15am	TEA BREAK
11:15am - 12:15pm	Case Selection for CAT - Dr. Rajaganesh Gautam - Pushing the Envelope of Discrepancy with Aligners - Arch length discrepancy - Vertical discrepancy - Transverse discrepancy - A-P discrepancy - Indications for CAT

12:15am - 1:30pm	Biomechanics & Principles - Dr. Rajaganesh Gautam - Attachments - Crowding & Spacing - Deep Bite Treatment - Anterior Open Bite Treatment - Class II Treatment - Class III Treatment - Lower Incisor Extraction Treatment - Premolar Extraction Treatment - Interdisciplinary Treatment
1:30pm - 2:00pm	LUNCH BREAK
2:00pm - 3:00pm	Troubleshooting, Finishing & Retention - Dr. Gaurav Gupta - Fitting of Aligners - Maxillary lateral Incisors - Managing Root Intrusion - Development of Posterior Open Bite - Finishing Techniques - Over Correction Vs Over Treatment - Principle of Finishing - Retention
3:00pm - 4:00pm	Cases, Evidence & How to Incorporate in your Practice- Dr. Gaurav Gupta - Evidence on Aligners - Where we stand - Cases - Incorporating Aligners in your practice
4:00pm - 5:00pm	Case Submission & Understanding Virtual Setup - Dr. Gaurav Gupta
5:00pm - 5:15pm	TEA BREAK
	Hands On Session
5:15pm - 5:30pm	IPR-Dr. Rajaganesh Gautam
5:30pm - 5:45pm	Attachments - Dr. Gaurav Gupta
5:45pm - 6:00pm	Intra - oral Scanning Valedictory - Certificate Distribution

PRE CONFERENCE COURSE ON HOLSISTIC CARE OF CLEFT LIP AND PALATE

Prof. OP Kharbanda & Team
BDS, MDS (Lucknow), M OrthRCS
(Edinburgh), M Med (Dundee), FDSRCS
(Edinburgh) Hon, FAMS
All India Institute of Medical Sciences,
New Delhi India

Professor OP Kharbanda is the CHIEF of the Centre for Dental Education and Research (CDER) and Head of Orthodontics and Dentofacial Deformities, at All India Institute of Medical Sciences (AIIMS), New Delhi. He is Director of WHO Collaborating Centre and National Centre of Excellence on Oral Health Promotion, Ministry of Health, Government of India. CDER is also Global Partner with Cochrane Oral Health Group Manchester, England. He is also Course Director of Cleft and craniofacial fellowship program.

Prof. Kharbanda is a renowned author, researcher and clinician. He is the leader of the dental profession in India and credited with bringing out high standards of care, and Research and oral health-related policy in India. Under his leadership, a multidisciplinary apex National Institute for Higher studies and Dental Research is being established at AIIMS New Delhi.

His particular field of interest in orthodontics is related to the comprehensive care of Cleft lip and palate. He has his training in Cleft Lip and Palate in the UK, USA and Canada as a British Commonwealth Fellow and as a Visiting Scholar of the American Cleft Lip Palate Craniofacial Association. Dr. Kharbanda is involved in the care of Cleft patients since 1985 through Combined Cleft Lip and Palate Clinic at CDER, AIIMS which was established in the 70s. Dr. Kharbanda made a significant national and international contribution to the development of interdisciplinary cleft care. He has lectured extensively on the subject across the globe. He is the past President of the Indian Society of the Cleft Lip and Palate and Co-Chairman of the Global task force 2017. Dr. Kharbanda is a visiting Professor at La Trobe University Melbourne, Australia and has travelled and lectured in several countries.

Session I : Introduction to cleft Time : 9:00 am to 10:30 am

9:00 am - 9:30 am	Introduction and overview of cleft I. Incidence II. Epidemiology Speaker: Dr. OP Kharbanda
9:30 am - 9:45 am	Embryological perspective in cleft patient Types of Cleft/Classification Speaker: Dr. Nitika Monga
9:45 am - 10:00 am	Etiology of cleft lip & palate Types of Cleft/Classification Speaker: Dr. Nitika Monga
10:00 am - 10:10 am	Long Term Growth studies on cleft patient Speaker: Dr. O.P. Kharbanda
10:10 am - 10:30 am	International Protocols for cleft card Status of Cleft card in India and Developing Countries Speaker: Dr. O.P. Kharbanda
10:35 am - 10:45 am	Discussion
10:35 am - 10:45 am	TEA BREAK

Session II : Surgical Management at infancy, primary dentition Time : 11:30 am to 11:50 am

11:00 am - 11:20 am	Surgical Anatomy of lip & palate in cleft Principles of Primary Lip & Palate Surgeries Speaker: Dr. Manish Singh
---------------------	--

11:20am - 11:30 am	Discussion
--------------------	------------

Session III : Essential records taking in Cleft Patient Time : 12:00pm to 1:00pm

11:30am - 11:40am	History taking Clinical examination Speaker: Dr. Karthik S
11:40am - 12:00pm	Impression recording Cleft photography Essential radiographs and its schedule Speaker: Dr. O.P. Kharbanda

12:00pm - 12:10pm	Discussion
-------------------	------------

Session IV : Orthodontic Management of Cleft Time : 12:10pm to 3:50pm

1. Orthodontist's role in Infant till Primary Dentition

12:10pm - 12:40pm	Pre surgical Nasoalveolar Moulding Orthodontist's role in Primary Dentition Speaker: Dr. O.P. Kharbanda
12:40pm - 1:40pm	LUNCH BREAK

2. Orthodontist's role in Mixed Dentition

1:40pm - 2:00pm	Pre-Secondary alveolar bone grafting Orthodontics Speaker: Dr. O.P. Kharbanda
2:00pm - 2:20pm	Post SABG Orthodontics Speaker: Dr. O.P. Kharbanda
2:20pm - 2:40pm	Growth Modulation for maxillary hypoplasia in cleft Speaker: Dr. O.P. Kharbanda

3. Orthodontist's role in Permanent Dentition

2:40pm - 2:50pm	Maxillary Distraction Orthodontics Speaker: Dr. O.P. Kharbanda
2:50pm - 3:10pm	Anterior Maxillary Distraction Segmental Distraction Orthodontics Speaker: Dr. O.P. Kharbanda
3:10pm - 3:30pm	Presurgical & Postsurgical Orthodontics for cleft patient Speaker: Dr. O.P. Kharbanda
3:30pm - 3:50pm	Finishing & Detailing and Retention for cleft patient
3:50pm - 4:00pm	Discussion
3:50pm - 4:00pm	TEA BREAK

Session V : Recent Advances in Cleft

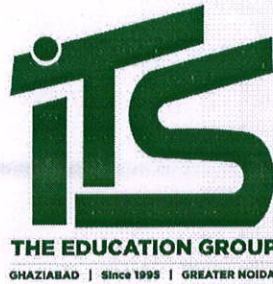

4:15pm - 4:30pm	3D imaging and scanning 3D printing
-----------------	--

Session VI

4:30pm - 5:00pm	Open Session
5:00pm	Role of Support groups in Cleft care
5:00pm - 5:15pm	Discussion

PRECONFERENCE COURSE ON SKELETAL ANCHORAGE DEVICES: TAMING THE TECHNIQUE

Dr. Tulika Tripathi

Dr. Tulika Tripathi is Senior Professor and Head, Department of Orthodontics and Dentofacial Orthopaedics, Maulana Azad Institute of Dental Sciences, New Delhi. She did her post graduation in Orthodontics from KGMC Lucknow in 1986. She was a recipient of a gold medal in Orthodontics and silver medal in Human dental anatomy and Histology. She has participated in training course conducted by WHO and Japan International co-operation agency held at Japan. She is an avid speaker at many national and international forums and has to her credit numerous scientific publications. She has keen interest in the management of craniofacial anomalies and skeletal anchorage systems.

Dr. Priyank Rai

Dr. Priyank Rai is working as a Professor in post graduate department of Orthodontics and Dentofacial Orthopaedics, Maulana Azad Institute of Dental Sciences, New Delhi. He did his post graduation in Orthodontics from KGMC Lucknow in 1998. He has written scientific papers in many national and international journals. He has keen interest in skeletal anchorage systems.

Courses Details	<p style="text-align: center;">DIDACTICS History, principles of skeletal anchorage, design considerations, case selection & treatment planning, surgical consideration : guides & splints, controlled mechanotherapy, future strategies.</p> <p style="text-align: center;">CASE PRESENTATIONS & VIDEOS Tads, IZC screws, ramus screws, buccal shelf screws & their applications. BONE PLATES : 1. Maxillary Protraction 2. Intrusion of posterior teeth 3. Skeletally anchored fixed functional appliances</p> <p style="text-align: center;">HANDS ON Placement of tads on bone pieces</p> <p style="text-align: center;">LIVE DEMONSTRATION Placement of TADs on facial skeleton of patients</p> <p style="text-align: center;">QUESTION AND ANSWER SESSION</p> <p style="text-align: center;">VALEDICTORY</p>

COURSE HIGHLIGHTS

- Candidates would place Implants on Patients.
- One to one interaction with Faculty
- Certification from University of Alberta, Canada.
- Comprehensive Lectures and Demonstrations
- Hands - On Implant placement on dummy
- Live Surgeries and cases discussion
- Hands - On Implant planning using 3D imaging

MODULE - I

Day-1 6/5/19

TOPIC	FACULTY
Introduction and Basics of Implantology	Dr. Sachit Anand Arora
Applied Anatomy of Maxilla and Mandible	Dr. Himanshu Bhutani
Oseointegration and Implant Designs	Dr. Punit Khurana
Implant Components and Equipments	Dr. Vishwas Bhatia

Day-2 7/5/19

TOPIC	FACULTY
Patient Selection-Local and Systemic evaluation	Dr. G.K. Thapliyal
Imaging in Implantology	Dr. Manisha Laxhanpal
Hands - On Implant Planning using 3D Imaging	Dr. Manisha Laxhanpal Dr. Siddharth
Treatment Planning for Implants	Dr. Aditya Chaudhary

Day-3 8/5/19

TOPIC	FACULTY
Surgical Preparation of Patient and Operatory	Dr. Rupali Kaisi Mathur
Demonstration and Hands - On	
Implant Placement on dummy	Dr. Vishwas Bhatia Dr. Anju Aggarwal
Suturing Techniques	Dr. Shivjot Chhina Dr. Kuntar Saurav
Live Surgery	

MODULE - II

Day-1

TOPIC	FACULTY
Second stage surgery, Soft and Hard tissue evaluation	Dr. G.K. Thapliyal
Immediate Implant	Dr. Aditya Chaudhary
Live Surgery	

Day-2

TOPIC	FACULTY
Esthetics in Implantology	Dr. Vishwas Bhatia
Occlusal Consideration in Implants	Dr. Punit Khurana

MODULE - III

Day-1

TOPIC	FACULTY
Peri Implantitis & Implant Failures	Dr. Shivjot Chhina
Impression Techniques	Dr. Anju Aggarwal
Loading Protocols	Dr. Aditya Chaudhary
Demonstration and Hands - On	
Impressions Techniques for Implants	Dr. Vishwas Bhatia Dr. Kartika Nitin Kumar

Day-2

Foreign Faculty Lectures
Test and Evaluation
Valedictory Function
