Know Nois For No Noise Workshop (22.11.2017-23.11.2017)

Report

Department of Pedodontics and Pediatric dentistry organized a two day interactive program “***Know Nois For No Noise***” from 22nd Nov. to 23rd Nov. 2017. The program was conducted in **Vidya Auditorium at ITS Dental College, Greater Noida.**

The event was inaugurated by **Director-Principal, Dr.Akshay Bhargava** and **Dr. Mousumi Goswami**, (Prof and Head, Department of Pedodontics) with other faculty members of the department.

Attended by	Total number
Faculty members	8
Mds students	25
Total	33

Dr. Srinivas Nimeneni was the invited guest speaker for this program. Dr. Srinivas Nimeneni is an eminent pedodontist. He has an exclusive hospital based pediatric dentistry practice. He has delivered several lectures at national and international forums. His name features in the list of contributors in the Textbook of Nitrous oxide and Oxygen sedation by Morris S. Clark. Currently he is the President of Indian Society of Pedodontics and Preventive Dentistry.

Many children undergoing minor procedures need effective sedation, or anesthesia, because they are frightened, in pain, ill, or have behavioral problems. Some procedures are very common and anesthetists should know what sedation techniques are effective and likely to be used by other healthcare practitioners. *In children presenting for anesthesia, occasionally, it may be appropriate to use conscious sedation instead.*

Inhalational conscious sedation is a technique that uses Nitrous Oxide as an agent to calm the patient and deliver painless dental treatment. Child remains in a state of relaxation maintaining his protective reflexes during the treatment. Child who has undergone this treatment can walk away same day. This technique is gaining wide spread acceptance among Indian population.

In order to enhance skills of clinicians working in the department of pediatric dentistry; a two day interactive program was organized. This program involved a series of lectures followed by hands on program. Thirty three participants who attended the program included faculty members, post graduate students of ITS Dental College, Greater Noida & Muradnagar.

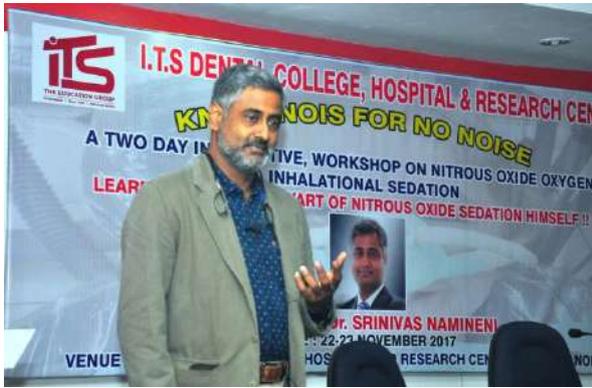

First day involved a series of informative lectures elaborating the use of nitrous oxide gas, its mechanism of action, pharmacokinetics and pharmacodynamics. Technique of use, Occupational hazards and safety measures to be taken while using nitrous oxide in the machine were elaborated in great details.

Second day started with an interactive session and a doubt clearing session. Participants clarified their doubts and queries regarding various aspects of conscious sedation technique which was followed by a hands-on.

Hands-on started with an elaborate discussion on various parts of the machine. This was followed by live demonstration on subjects. The program gave in-depth insights into the technique. Some joyful moments were captured in the lens. This was followed by felicitation of speaker done by Dr.Akshay Bhargava and Dr. Mousumi Goswami.

The enthusiasm in faculty and students could be easily palpable by one and all. The event was followed by lunch for the dignitaries and delegates. The event was academically gratifying.

IACDE North Zonal Conference

IACDE North Zonal Conference Being Organized At ITS Dental College Hospital And Research Center

Indian Association of Conservative Dentistry and Endodontics had organized 1st IACADE North Zonal Conference at ITS Dental College Hospital and Research Center, Greater Noida. The three day conference began on 20th September and will end on 22nd September.

The three day event started with the Pre- Conference Courses on 20.09.2018 which was grand success. There were hands on course on various topics ranging from Smile Designing, Basic skills in Photography, The Art of Scientific Writing, wherein the more than 100 participants used the knowledge acquired during the course on live patient.

This conference had different doctors as key note speakers that had benefited the students a lot. Main topic for the conference was Smile design and Regenerative Endodontics which uses the concept of tissue engineering to restore the root canals to a healthy state.

In this conference students and faculty members around more than 40 medical colleges and a total of 300 students will be attending the conference. Every day has 10 sessions in which research papers will be submitted and on the last day of event best of 3 will be selected.

There was Keynote Lecture by Dr B Mohan, Secretary IACDE on the topic "Where Do We go Wrong in Aesthetics". He told the students that the success of any aesthetic treatment lies in the patience and precision in understanding the patient problem. He showed his various case presentations and told that even the senior endodontists may also fail to deliver best sometimes.

Dr Rohit Kochar on behalf of I.TS Dental College, Greater Noida extended a warm welcome to all the guests and delegates and appreciated the efforts of the organizing team for conducting this kind of Conference

Practice Management 21.02.2018

Report

One of the most required skills to be successful in practice is the management of patients. We hone our skills and knowledge in college with our clinical training, however, the contribution of soft skills and human relations is a very important aspect that governs our success in practice. Appreciating the need for these skills the Institute organized a practice Management workshop on 21st Feb 2018.

The programme started with a welcome not by Dr. Mousumi Goswami, Head , Dept. of Pedodontics. Following this the first session was initiated by Dr. Kunal Gupta who gave a deep insight of the dental industry. He also gave useful tips on self development and personal skills, building a dental clinic, team building and technology involved. Post a short break the second session began with Dr. Kunal explaining in detail patient handling, analysis, promotion and marketing. Next was the queries session where students presented lots of questions regarding clinic set up, methods of increasing patient opd, and better marketing strategies.

The third session started with Dr. Akshay Bhargava, Director-Principal, ITS Dental College, who gave the audience deep an extensive knowledge on Ethical Practices and Clinician Protection. Lastly the session was concluded by Dr. Abhishek Nagpal, Professor, Dept of Prosthodontics, who summarized the whole programme followed by vote of thanks by Dr. Sachit Anand Arora.

**WORKSHOP ON GUIDE TO DIGITAL PHOTOGRAPHY: HANDS-ON
COURSE**

The significance of maintaining dental records is profound and mandatory for a number of reasons ranging from academic interests to documentation. It is important for the clinician to have an apt knowledge of photography for procuring ideal photographic records. To cater for this need, the Department of Orthodontics and Dentofacial Orthopedics in association with Canon organized a seminar on digital photography on 21st May 2019.

The course faculty for the workshop was Dr. Tarun Sharma, Professor, Department of Orthodontics and Dentofacial Orthopedics at Seema Dental College, Rishikesh, an expert in the field of photography. The programme commenced with a lecture on basic fundamentals and understanding the system by the speaker followed by an interactive session for preparing the camera for clinical condition. This was followed by hands on interactive session on extra oral photography.

The post lunch session was conducted with another hands on interactive session for intra oral photography. The last session was on photography requirements for publications and presentations. The programme was concluded with vote of thanks by Dr. Anshul Singla, Professor, Department of Orthodontics.
